Mr. Steve King
President, South Texas Section of the Society of Plastics Engineers
Solvay S.A.

Dear Mr. King and Members of the South Texas Section,

I am writing this letter to express my deepest gratitude for having been selected to receive the 2018 Mark Demark Scholarship of \$500 from the Endowment at Texas Tech University (TTU) initiated by the South Texas Section of the Society of Plastics Engineers (SPE). I feel honored and encouraged by this award and I thank you very much for supporting the Student Chapter at TTU.

I am a 4th year Ph.D. student planning to graduate in May 2020. The award motivates me to continue to do well in academics and research and will also help me in my future endeavors. I am grateful for the support and encouragement given to me and my fellow graduate students at TTU.

Thank you once again and the opportunity to compete for this scholarship has been an enriching experience, one that has helped in remembering Mr. Demark through the Endowment at TTU.

Respectfully,
Dinesh Sundaravadivelu Devarajan
Ph.D. Student
Department of Chemical Engineering
Texas Tech University

Mr. Steve King
President, South Texas Section of the Society of Plastics Engineers
Solvay S.A.

Dear Mr. King and Members of the South Texas Section,

I write this letter to thank you very much for the support provided to the TTU Student Chapter of the SPE. I am very grateful to be the recipient of a 2018 Mark Demark Scholarship of \$500 from the Endowment at Texas Tech University that was set up by the South Texas Section of the Society of Plastics Engineers.

I plan to complete my Ph.D. in May 2019 and as a graduate student in Chemical Engineering, all financial support is greatly appreciated. This award is more special to me, however, because it comes from an organization that fosters smart dialogue between academia and industry in a field that I work in and plan to be a part of once I graduate. I think my interest in plastics comes from the fact that my mother worked as a plastic machine operator for most of her life and receiving this scholarship further motivates me to move forward and accomplish all the goals I've set for myself.

Again, thank you very much for the award and your support. Thank you for memorializing Mr. Demark through the SPE Endowment and thank you for enriching our student experiences through the Society of Plastics Engineers.

Sincerely,

Evelyn Lopez
Ph.D. Candidate, Chemical Engineering Department
Texas Tech University

Mr. Steve King
President, South Texas Section of the Society of Plastics Engineers
Solvay S.A.

Dear Mr. King and Members of the South Texas Section,

I am writing because I was just informed that I will be receiving a 2018 Scholarship of \$500 from the SPE Student Chapter at Texas Tech University through the support of the South Texas Section of the Society of Plastics Engineers. I would like to thank you for your generous support of the TTU Student Chapter, so that they may support their members.

I am a new member to SPE, and I am from Abilene, Texas. I'm an officer in Tau Beta Pi Honor Society and am an active volunteer in the Lubbock community. As a student in Chemical Engineering, this award will be a great help in finishing my studies. I graduate in May 2019, so it feels wonderful to have this final recognition of my hard work.

Again, thank you very much for the award and your support. The opportunity to compete for the SPE Student Scholarships has been an incredible opportunity and is much appreciated.

Sincerely,

A handwritten signature in blue ink that reads "Jenni English". The signature is written in a cursive, flowing style.

Solvay S.A.

Dear Mr. King and Members of the South Texas Section,

I have recently got scholarship of \$500 from the SPE Student Chapter at Texas Tech University through the support of the South Texas Section of the Society of Plastics Engineers. I really appreciate your support provided to the TTU Student Chapter of the SPE.

I am a current PhD student and planning to complete in May 2021. I got familiar with Society of Plastics Engineers last year and am a member since. I really enjoy being the part of the society and hope this award will also inspire me in my future research career.

Again, thank you very much for the award and your support. The opportunity to compete for the SPE Student Scholarships has been a growth experience and is much appreciated.

Sincerely,

Nishat Anjum
Graduate Research Assistant
Chemical Engineering department
Texas Tech University
Lubbock, Texas-79409

Mr. Steve King
President, South Texas Section of the Society of Plastics Engineers
Solvay S.A.

Dear Mr. King and Members of the South Texas Section,

I am writing because I was just informed that I will be receiving a 2018 Mark Demark Scholarship of \$500 from the Endowment at Texas Tech University that was set up by the South Texas Section of the Society of Plastics Engineers. I would like to thank you very much for the support and the general support provided to the TTU Student Chapter of the SPE.

As a graduate student in Chemical Engineering, also a 5-year member of SPE, SPE is like part of my family in US. I remember the first time I went to the International Polyolefins Conference in Houston, that was my first conference ever, and I was totally touched by the Polyolefin conference committees, they were so helpful and warm to me, making me felt like being loved by the families. Then through my experience of being the president of TTU SPE student chapter, I made more connections in industry and it helps me a lot in learning and job searching. During these 5 years of being a PhD student, SPE helped me a lot and saw my growth, which means a lot to me. I plan to complete my Ph.D. in May 2019 and this award will also help me in my future endeavors.

Again, thank you very much for the award and your support. The opportunity to compete for the Mark Demark scholarship is an opportunity that enhances our experiences and memorializes Mr. Demark through the SPE Endowment.

Sincerely,

Qi Li

Dear Mr. King and Members of the South Texas Section,

I am writing to express my gratitude as I have been recently selected to receive a 2018 Scholarship of \$500 from the SPE Student Chapter at Texas Tech University through the support of the South Texas Section of the Society of Plastics Engineers.

I would like to thank you for the support you have provided to our student chapter. Your contributions enable students like me to alleviate the financial burden of going to college and to focus more on its most crucial aspect, learning.

Few years ago I left my country, the Dominican Republic and my family, to move to Texas Tech University and pursue an academic that tackles global issues. Today, I am majoring in Chemical Engineering with a minor in Materials and Polymers Sciences. A degree which I plan to complete in Spring 2019 and then proceed to a professional career in the polymer industry. I believe that there is a substantial amount of improvement that can be done in the way that plastics are produced and recycled, and I aim to become one of the next generation leaders that positively contribute to these challenges. Without any doubt, this award will help me in this future endeavor.

Again, thank you very much for your thoughtful and generous support. Receiving this award has been an encouraging experience and is much appreciated. I hope one day I will be able to help students achieve their goals just as you have helped me.

Sincerely,

Mr. Steve King
President, South Texas Section of the Society of Plastics Engineers
Solvay S.A.

Dear Mr. King and Members of the South Texas Section,

I have received the confirmation email from Dr. Gregory McKenna who is the advisor of SPE Student Chapter that I will be awarded a 2018 Mark Demark Scholarship of \$500 from the Endowment at Texas Tech University that was set up by the South Texas Section of the Society of Plastics Engineers. I consider this recognition as an inspiration for my research in polymer. Thank you very much for your support. I would also like to appreciate your general support provided to the TTU Student Chapter of the SPE.

The support you provided is truly motivational and will help me to be successful as a graduate student in Chemical Engineering. My plan is to complete my Ph.D. in May 2019. Surely this award will help me in my future research. Competing for the Mark Demark scholarship is an opportunity to flourish our research and memorializes Mr. Demark through the SPE Endowment.

Again, I am heartily thankful for the award and your support.

With best regard,

Sheik Mohammed Saeed Tanveer
Graduate Research Assistant
Department of Chemical Engineering
Texas Tech University

Dear Mr. King and Members of the South Texas Section,

I am writing this letter because I was informed that I will be receiving the 2018 Mark Demark Scholarship. The scholarship was set up by the South Texas Section of the Society of Plastics Engineers and \$500 amount is received through the Endowment at Texas Tech University. I would like to take this opportunity to thank you generously for giving me this award.

I am a PhD student in Chemical Engineering and the financial support is a great reward for all my hard work and it motivates me to give my best. As I complete my education, it will also help me in my future endeavors.

Again, I am grateful to get this opportunity to compete for the scholarship and win your confidence in me and thank you very much for your support to the students and the student chapter at TTU.

Sincerely,

Sourya Banik
PhD candidate

Dear Mr. King and Members of the South Texas Section,

I am writing because I was just informed that I will be receiving a 2018 Mark Demark Scholarship of \$500 from the Endowment at Texas Tech University that was set up by the South Texas Section of the Society of Plastics Engineers. I would like to thank you very much for the support and the general support provided to the TTU Student Chapter of the SPE.

As a graduate student in Chemical Engineering, the support is greatly appreciated and motivational. I plan to complete my Ph.D. in May 2022 and this award will also help me in my future endeavors.

I am currently focusing on dynamic and structural recovery study of plastics, which is important for the plastics society. As a SPE member, I would like to share my knowledge with every SPE member, including TTU and outside chapters. In the meantime, within the TTU Student Chapter of the SPE, I am advocating to reduce abuses of plastics for eco-friendly purpose, which enlarges the picture of social responsibility of our chapter.

Again, thank you very much for the award and your support. The opportunity to compete for the Mark Demark scholarship is an opportunity that enhances our experiences and memorializes Mr. Demark through the SPE Endowment.

Sincerely,
