

INTERNATIONAL POLYOLEFINS CONFERENCE

Houston, Texas • February 23-26, 2020

Presented by SPE South Texas Section, SPE Polymer Modifiers and Additives Division, SPE Engineering Properties and Structural Division, SPE Flexible Packaging Division, and SPE Thermoplastic Materials and Foams Division

TECHNOLOGY ENABLING SUSTAINABLE GROWTH

CALL FOR PAPERS

The SPE South Texas Section, the SPE Polymer Modifiers and Additives Division, the Thermoplastic Materials and Foams Division, Engineering Properties and Structural Division, and the Flexible Packaging Division are organizing technical sessions for the 2020 SPE International Conference (Feb 23-26) in the following areas:

- Current Trends in Markets, Technology, and Investments
- Innovation in Polyolefin Catalysts and Process
- Advances in Polyolefin Stabilization
- Modifiers for Polyolefins
- Advances in Polymer Testing and Characterization
- Flexible Packaging
- 3D Printing
- Advances in Compounding
- Polyolefin Pipe Applications
- Sustainability & Recycling
- Enhancement of functional polyolefin properties for applications

Due Dates for Submission:

Abstracts:	October 19, 2019
Papers:	January 18, 2020
Presentations:	January 18, 2020
Student Posters:	January 18, 2020

To submit a paper, contact [Vassilios Galiatsatos \(vgaliatsatos@msn.com\)](mailto:vgaliatsatos@msn.com)

To become a sponsor, contact [Richard Keeler \(richardk@kisuma.com\)](mailto:richardk@kisuma.com)

To procure an exhibition booth, contact [Kevin Alexander \(kevin@kwatech.com\)](mailto:kevin@kwatech.com)

For more information go to spe-stx.org/international-polyolefins-conference The 2019 SPE International Polyolefins Conference in Houston was very successful with over 625 people attending, 60 exhibitor booths, a student poster competition, two networking receptions, and tremendous commercial activity.
